# COMPANY OVERVIEW

The company was founded on June 7, 2013. In the last 11 years, we have certified hundreds of individuals and helped a myriad of companies in cementing process improvement and innovation within their organizations.

At Highclere - Six Sigma Consulting Inc., we don't believe that training needs to be complex for it to be valuable. Rather, training should be practical, understandable relevant, enjoyable, and engaging. Training should make you want to become a practitioner. It should empower your capabilities as well as your company's.

"If you can't explain it simply, you don't understand it well enough."  
-Albert Einstein

# Six Sigma PH

Six Sigma for Service Industry

## MISSION AND GOAL

**Our Mission is to make Six Sigma  
SIMPLE & PRACTICAL to make it effective.**

At Six Sigma PH, our goal is to facilitate learning and help you obtain expertise in the tools that will lead to ongoing success. Our practical approach to training allows non-statisticians in the industry, government, and service sector to embrace the philosophy and implementation of continuous quality improvement.

We conduct training and certify professionals for process improvement which makes use of tools such as DMAIC - that result in cost savings and reduce the defects in your company. For certification, we make use of the BELT SYSTEM that enhances your credentials as you take each step further: YELLOW, GREEN, and BLACK Belt.

More importantly, we are committed to helping you master the skills that will deliver a substantial return-on investment.

San Lorenzo,  
Makati City,  
Philippines.

**+632-7980-6690  
+63917-190-4669**

**Our Mission is to help companies be sustainable by avoiding launch of mediocre products and services.**

At the School of Design Sprint, we aim to promote the sustainability of businesses by equipping company owners, executives, innovators, employees, and ordinary individuals with design methodologies that will help them guarantee the development of products or services that people want to use.

Our program ensures that you have gained mastery in applying the tools to bridge customer and business, generate creative ideas, and make concepts into viable products or services that will lead to a substantial Return-On-Investment.

All of these are through our refined concept of learning using a simple and practical approach. By the end of the program, you will have the right knowledge and process to drive practical, high-impact innovation inside your organization.

**Olive Ibañez**  
L&D Director

"It was a highly interactive session. In one day we were able to come up with a prototype of clients to review. We were able to get client feedback and iterate."

**Ruel Paulino**

Application Development and IT Head

"If you want to develop a new product or improve customer experience. this is the training for you. It was fun and very interactive, not only did I learn the concept but also had experience of applying real-life samples. Good job guys!"

**Anna Pauline Singson-Vila**

Chief Operating Officer

"We had an excellent Lean Six Sigma training today. I enjoyed meeting everyone and had a great time sharing insights and doing interactive simulations. Looking forward to improving processes in our organization soon!"

**Buenalivia Olatan**

Administrative Officer V

"A very innovative, interactive, and engaging way of learning Six Sigma. I really appreciate the simulation activity which helps us understand the principles, techniques, and application of six sigma in the easiest and practical ways. Thank you, Sir Rex and Six Sigma PH for a very fun and rewarding experience."
